

Rules and Regulations

1. A team may consist of at most two students, and the participants may choose the teams as they wish.
2. The problems will be posted every fortnight on the official website for Enumeration.
3. The participants are given a time of one week to solve and submit the solutions to the problems that have been posted.
4. A scanned copy /typed version of the solution(partial/complete) should be mailed to enumeration.pravega@gmail.com by the deadline. Note that only the first submission will be considered for evaluation.
5. Solutions will be graded on accuracy as well as rigour. Lemmas or theorems used without proof must state a source.
6. The solutions will be evaluated and the scores will be updated in the leaderboard at the end of every two weeks so that the participants can view how they have fared against the others.
7. A sketch of the grading rubric, regarding common mistakes and points deducted will be posted at the end of every two weeks.
8. Contestants may not discuss or post solutions in any public/private forum accessible to people other than their teammate.
9. Any ties between the top 5 contestants at the end of the challenge will be resolved by an extra round of questions , if needed.
10. Participants who have chosen to subscribe to updates will receive emails about the same when a new problem is released.
11. All questions and clarifications should be mailed to enumeration.pravega@gmail.com.
